Golden Wedding for W. H. Hamblens Will Be Observed Aug. 27

The Golden Wedding Anniversary of Mr. and Mrs. W. H. Hamblen will be observed at the Wayside Church on Sunday, August 27.

Invitations have been sent to pioneers and other friends of the family over the Panhandle.

Church services will be attended at 11o'clock by Mr. and Mrs. Hamblen and members of their family, together with a multitude of friends.

A basket lunch with barbecue will be served at noon.

The program will be held at 1:30 o'clock, followed by a reception at the farm home from 3:30 until 6:00 o'clock.

Mr. and Mrs. Hamblen are expecting all of their children to arrive for the celebration, together with hundreds of other friends and relatives.

Pioneers will pay tribute to the couple during the program of the afternoon.

Three Bills Returned Monday by Grand Jury in Dist. Court

The grand jury was in session Monday and returned three bills.

Bert Morrison, Jr. of Borger was billed on the charge of rape.

E. L. Faulkner was indicted on the charge of embezzlement over $50.

Carl P. Benson is under indictment on the charge of passing a hot check.

District Attorney Loyd King states that a criminal case has been set for trial every week until the end of October. He hopes that the duties of the office will be less strenuous than until his term of office ends on the first of January.

Ben Guill Asks for Small Business to Get War Business

Congressman Ben Guill has filed a request with the Selective Committee on Small Business for a meeting to be held in Amarillo soon to consider war contracts.

There are many small business firms in the Panhandle capable of handling war contracts, and Guill is seeking this meeting to lay plans before this committee for the Panhandle firms.

Further announcements will be made soon.

Canyon Schools Get Ready for Opening

Registration in the Canyon Elementary Schools will begin on Friday, the first day of September, under the new plan of the Texas Education Agency. Enrollment at both elementary schools will begin at 1:00 Friday afternoon September 1.

All seventh and eighth grade students will meet in the auditorium of the West Texas Elementary School, formerly known as the Demonstration School, under the direction of E. R. Reeves, Principal.

Pupils who are to enroll in the elementary grades 1 through 6, may choose to enroll in either the West Texas Elementary School located on the College campus or the Canyon Grade School, located on the high school campus. It is the desire of school officials to allow pupils this choice as a continuation of the policy used in the past, although it is respectfully requested that parents who have made no particular choice at this time, and who live in the addition east of the Amarillo-Happy highway direct their children to the West Texas Elementary School rooms. Others will enroll with Miss Elva Fronabarger, Principal at the Elementary Grade School.

Registration of high school students will begin on Wednesday, August 30 under the direction of Jas. E. Miller, Principal. The following schedule has been adopted:

August 30, Wednesday:
8:30 to 12:00
Registration of Seniors
1:30 to 5:00
Registration of Juniors

August 31, Thursday:
8:30 to 12:00
Registration of Sophomores
1:30 to 5:00
Registration of Freshmen

September 1, Friday:
1:30 to 5:00
Registration of all high school students unable to register on Wednesday or Thursday.

All that is necessary for the registering students to bring is $1.00 for the activity fee. This fee entitles the student to attend the assembly programs performed by outside artists.

Classes will begin at 8:45 a. m. Monday, September 4, in all schools. School busses will run at the regular time before school and at the close of the day, 3:45 p. m. Lunch will be served in the cafeterias of each school.

Busses will be provided to transport 7th and 8th grade pupils living in the west part of town, from the high school to the West Texas Elementary School. Busses will also bring high school students living in the east part of town from the West Texas Elementary School to the Canyon High School. It should be noted that no stops will be made enroute between buildings, therefore, those desiring this service will be required to be at the proper building not later than 8:30 a. m.

Parents are reminded that children entering school in Canyon must have their small pox and diphtheria innoculation records in order. It is suggested that in the event birth certificates are not available that they be required early in order that registration and enrollment may be completed on September 1.

Under the Gilmer-Aiken Program of Education now in operation by the Texas Education Agency, the public schools of Texas will begin the school year of 1950-51 with the longest calendar year in history, and the Canyon Public Schools have geared their work accordingly to provide for a minimum of 175 days of actual classroom instruction. This, of course, does not include holidays, registration days, Tri-State Fair days, etc., and the program which has been adopted by the Board of Education is scheduled for a total of 175½ days of instruction. The first holiday will fall on Monday, September 18 when classes will be dismissed at 12 noon for the Tri-State Fair in Amarillo. On the Thanksgiving Holidays school will be dismissed both Thursday and Friday, November 23 and 24. Christmas Holidays will begin after work Thursday afternoon, December 21 with classes being resumed Tuesday morning, January 2. School will be dismissed for another holiday on Friday, March 9 for the Northwest Texas Conference for Education followed by two Easter Holidays, the 23 and 26 of March. At the close of school Baccalureate Exercises will be held Sunday evening, May 20, and the Commencement Program the following Thursday, May 24. School ends on Friday, May 25, unless the term has to be extended into the following week due to a possible loss of time.

Talent Show Is Put on Benefit of Local Kids

The Kiddie Talent show, originated to give everyone a chance to perform, has proved to be an all-girl show. Three talent programs have been presented thus far on Saturday mornings and no boys have appeared on the stage. It is hoped that the young male stars will sign up to take part in the next show which is to be held September 2. Any boy or girl that would like to take part on the program, singing, giving a skit or impersonation, or playing an instrument is asked to contact Vergie Haines at the News office.

An average of 275 young people have attended the Saturday morning programs made up of the talent show and a free movie sponsored by citizens of Canyon. Clyde Davis, W. J. Wooten, Sr., and C. E. Thompson have sponsored the movies thus far. It is hoped that the programs will be continued while school is in session; however, a few more sponsors are needed. Anyone that would like to help the children of Canyon by sponsoring one of the talent shows are asked to get in touch with Charlie Donnell or the recreation department at once.

Recreation Has Drawn a Large Group Children

With the closing session of the Canyon Community Recreation summer program on August 18, 962 children had participated in the ten-week program, which opened on June 12.

Buffalo stadium was the scene of a full afternoon of fun last Friday. The program included volleyball, croquet, bicycle races, a pet show, various contests, frog races, movies, and was concluded with an ample supply of watermelon for all the young people that have taken part in summer activities.

The most contested event of the afternoon was the frog race won by Richard Busteed. The pet show for children under 12 and their pets was won by Florence Hacker and her dog "Butch."

Throughout the summer awards have been given each Friday to all the first place winners in the tournaments held at the High School and Buffalo playgrounds. Saturday morning at the Kiddie Talent show at the Olympic Theater a bronze trophy was awarded by the Recreation Council to the boy or girl from each playground winning the most first place awards. Winners from the High School playground were Buddy Thompson and Jo Ann Mickey while the Buffalo playground champions were Rachel Maynard and Kenneth Berry. Martha Harding and Donnie Ford received trophies for being the youngest boy and girl to win the most awards.

The summer program was designed to give the children of Canyon a chance to spend their leisure time doing something worthwhile. Dramatic, art, drawing, singing, twirling, swimming, and story telling classes were offered in addition to the regular playground activities.

On Monday night the Canyon Community met to make plans for the winter program. It was voted to invite the citizens of Canyon and surrounding areas to the next meeting to give them an opportunity to criticize the summer program and to help formulate plans for the fall and winter program.

Fogging Machine Is Bought For Benefit of City

A fogging machine has been ordered for Canyon and should be delivered during the coming two weeks.

It is pretty late in the season to start effective use of the fogging machine, but the town will be gone over as soon as the machine arrives. Unless frost comes earlier than usual, the fogging machine will probably be used two or three times this fall in order to kill off the large number of mosquitoes and other insects which have made life miserable for those who use their lawns since the rains started.

The problem is that the city has no money with which to buy the machine, and must rely on voluntary contributions from citizens who are interested in the health situation of Canyon.

A regular schedule will be set up next year and the town fogged at regular intervals in order to kill off the insects and other pests.

In the meanwhile, citizens are asked to go by the city hall or by the bank or News office and leave their contributions to help buy the fogging machine.

LAMB COUNTY REUNION

The second annual reunion of Lamb County Pioneers will be held at Littlefield on Tuesday, August 29. Registration will be at 2:00 p. m., with a basketball dinner at 5:30 p. m.

All settlers of Lamb county prior to 1925 are eligible to membership.

Mr. and Mrs. Jack Downing and son, Scotty, spent the week-end in Groom with their parents.

Mrs. J. B. Anthony visited her mother Mrs. Flora Dickerson in Silverton Saturday.

One County Office To Be Filled by Vote

The second primary will be held in Texas on Saturday of this week.

The polls will open at 8 o'clock a. m. in all nine voting boxes of the county and will close at 7 o'clock p. m.

With a short ballot, and with only eight contests, with two candidates in each race, the election returns should be quickly completed.

The usual election bulletin board will be in the east window of the News office, and all interested citizens are invited to come to see the returns. The election should be completed early in the evening. All election judges are urged to get their returns in early to the Canyon News.

The County Executive Committee will meet on Tuesday afternoon at 2:00 o'clock at the court house to canvass the returns, report election votes to the State Committee and close up the committee's work for the year.

So far little interest has been shown in the results of the run-off election, but it is believed that interest will pick up before the final vote on Saturday.

The Republicans have placed advertisements in the 18th Congressional District calling upon voters to disregard the pledge on the primary ballots.

Those opposed to the election of Dallas candidates have renewed the advertisement which was placed in the newspapers of Texas last week. All Dallas candidates are urged to be defeated.

There has been much interest in the race for Lieutenant Governor. Ben Ramsey, who served in both the House and the Senate as well as Secretary of State is opposed by Pierce Brooks, who has been defeated in several other campaigns. It is indicated that Ramsey will win this race.

J. E. McDonald has a fight on his hands for the first time in 16 years as Commissioner of Agriculture. John C. White of Wichita Falls will be supported by many voters of Texas who are tired of McDonald and his practices.

W. A. Morrison of Milam County is opposed by Bob Lattimore of Dallas county for Judge of the Court of Criminal Appeals. Morrison is a good lawyer, while Lattimore is running upon the name he bears. He is no relative of the distinguished jurist of the same name who has long been associated with the courts of Texas.

Will Wilson of Dallas seems to have an edge over Fagan Dickson of Bexar county for the Supreme Court, place 1.

Meade Griffin of Plainview is favored as the best qualified candidate for the Supreme Court, place three. George W. Harwood of Dallas is his opponent, and is low on experience and slight legal ability. Griffin is a good lawyer and should be elected.

The race for Congress in the 18th District promises to bring out the voters. Altavene Clark led all Democrats in two races and is making a strenuous campaign to win the August primary. Walter Rogers of Pampa is her opponent, and is likewise making a hard campaign for the place.

Probably the hottest race will be for the legislature, 123rd district. Morris B. Cobb led in the July primary, but Kenneth K. Wheatley is making a hard fight for the post. While Wheatley spent little money in advertising during the first primary, he has been spending a lot with the newspapers, radio and printing during the run-off. Cobb is a lawyer, while Wheatley has two more years of study for his law degree.

The only county race will be between Bill Money and W. B. Campbell for the office of Tax Assessor and collector. Both men are from pioneer parents in Randall county and are well known here. While little interest has been shown in the race by local voters, it is believed that the two candidates will really turn on the heat before the ballots are cast on Saturday.

J. W. Shook, election judge in precinct 1, urged all voters who can possibly do so come to the American Legion Hall during the morning hours in order to help the election crew with the counting. Do not come to the polls between 2 and 2:30 o'clock p. m. as this is the hour which the absentee ballots must be counted by the election crew and the polls will be closed for voting during this time.

Bid on Farm-to-Market Road Goes to Amarillo Firm

The farm-to-market road running south from Amarillo on Washington Street will soon be under construction.

The contract was let Wednesday in Austin to Bell, Braden, Barker and Gilvin in the amount of $87,617 for paving 7.1 miles.

This will be the fourth farm-to-market road built in Randall county.

Nancy Root returned from Vernon Saturday with Mr. and Mrs. James Richardson whom she has visited for the last two weeks.

Mrs. Grady Melton and son visited Mr. and Mrs. Lee Garrett and family in Lubbock Sunday.

Park Attendance Will Go Above All Past Records

All attendance records at the Palo Duro State Park will be passed either Saturday afternoon or Sunday. A record of 85,894 was set last year on December 31.

The Amarillo Chamber of Commerce is planning a surprise party for the person who will exceed this number, and a surprise gift will be made.

Attendance last week numbered 3,554, which brought the total for the year up to 84,127. With only 1,767 persons to go, the record attendance should be shattered early Saturday, provided the weather remains open.

Jenkins Morris of Lubbock won the $375 diamond ring in the attendance drawing Sunday.

The attendance prize for next Sunday will be $500 to apply on the purchase of a farm in the Hereford area, given by J. B. Elliston.

Attendance at the Sundowners Theatre continues to grow, and the plays improve. "The Drunkard" is being put on. Admission is $1.00 per person.

Men Called to Take Physical Exams for Army Services

The following men were called for physical examinations in Amarillo on Monday of this week:

Mercel E. Rhoades, Fred Aagon, Jonnie A. Williams, William B. Bell, James N. Jennings, Charles D. Barnard, all of Canyon.

From Umbarger, Albert Schoenenberger.

From South Amarillo, Jack S. Laing, John A. Calvin, William W. Brandt, Kenneth E. Godwin, Lesley R. Allen, Jesse J. Hales.

From Happy, Franklin Bauer, Alfred B. Hamblen.

Methodist Church Is Burglarized Twice During the Week

Sunday school money was taken from the Methodist Church between Sunday and Wednesday when some one broke into the church building.

Officers working on the job have uncovered no clues.

During the noon hour Friday the lock on the pastor's study was broken, although the door was not locked. Rev. H. L. Thurston states that only about 70 cents in stamps was taken.

President Panhandle Press Recalled to Military Services

J. C. Howell, president of the Panhandle Press Association and publisher of the Wheeler Times, has been recalled to military services, reporting today.

Howell was instructor in radar during World War II and his services are needed to carry on this branch of the Army Air Corps. Albert Cooper will assist Mrs. Howell in publishing the Times.

Bank To Close For Election Holiday

The First National Bank will be closed on Saturday for the second Democratic primary.

Business houses should secure all of their necessary change on Friday.

Dr. and Mrs. Sam Johnson and baby of New Orleans are visiting in the home of his parents, Dr. and Mrs. Lee Johnson.

Charles Owens accompanied his aunt, Miss Alliene Crudgington of Amarillo, to Austin over the week-end.

EDITORIAL COMMENTS

Dallas Candidates Are Opposed Unjustly Because of Residence

The Canyon News carried an advertisement last week in which voters were advised to vote against all four Dallas candidates who are running for state office.

Personally we think that the plea is silly. We were tempted to reject this advertisement as being unworthy of any organization. The advertisement was sponsored by the so-called "Committee for Statewide Government." The chairman is Emmette Alexander of Marble Falls.

Why should the voters of Texas decide that citizens of Dallas were unfit to hold public office?

Is there any reason for declaring that Dallas should be boycotted in a political manner?

We are of the opinion that at least three of the four Dallas candidates should not be elected. But we certainly have a more substantial reason for not supporting these candidates than the mere fact that they live in Dallas. To reject all Dallas candidates because of their residence is pure political bunk.

We know what an appeal there is for candidates who come from the big cities. We have seen Amarillo dominate politics on the North Plains, and likewise we have seen Lubbock dominate politics on the South Plains. Voters just naturally look up to the candidates from the big centers as having more brains than the "hicks" from the cross roads. We have seen this work out too often, and in too many political campaigns to doubt the feeling of the voters. They simply flock to the big centers to get their candidates.

Just forget your prejudice against Dallas, and vote for the best qualified candidate, regardless of his residence.

Judge Meade Griffin Should Be Elected By His Merits

We hope that Randall county voters will continue to support Judge Meade Griffin of Plainview for place three on the Supreme Court. We are supporting Griffin, not alone because he is from West Texas, but because he is a capable and able lawyer.

His opponent is County Judge of Dallas county, with very limited law experience, and with no judicial experience. To select such a man would be a distinct reflection as to the judgment of the voters in picking up any candidate for a judicial job, regardless of his qualifications.

A citizen of Plainview, who has been a neighbor of Meade Griffin for more than 30 years, writes that Griffin is a most capable and qualified lawyer. Griffin has spoken in Canyon several times upon patriotic subjects and has been observed here in the court room. His personal life is high among his neighbors, as witnessed by the heavy vote he received in Hale county and other surrounding counties.

The fact that the Dallas News has come out strong for Meade Griffin indicates that this great newspaper is looking for experience rather than just another big town candidate, without legal qualifications.

So far as we know there is no instance in the history of the United States when any industry rejected a subsidy from the U. S. Treasury. If you doubt this, look up the history of railroad building, steamship lines, air lines, etc., and etc., not overlooking the protected industries.

It strikes us as exertmely silly that the great industrial plants of the United States have not been set to work to produce the largest and best tanks in the world.

It's about time that somebody saw the flying saucers again; better still, it might be a good idea, if there are any such things, to let the Koreans see them.

The North Atlantic treaty nations are developing a joint military program, almost without regard to which country puts up the money.

Bankers and industrialists continue to worry about the possibility that price supports may destroy the fibre of the American farmer.

In the course of current events never forget that you can get so close to the trees that you can't see the forest.

Communist China may come into the war in the Far East, which will be a bad thing for Communist China.

Free speech, according to the Supreme Court, does not give a man a right to yell, "Fire," in a crowded theatre.

Every generation of old people worries about the youngsters and thinks that boys and girls have no sense.

Who remembers when the advent of the public school system was denounced as a "step toward socialism?"

One of these days people will not work so long for the money with which to buy the necessary things of life.

We welcome letters from readers of *The Canyon News* and if they are short we will try to print them.

When you see a good looking young woman just remember that she knows it better than you do.

The course of history is a complete mystery to many people who like to tell us what we must do.

Millions of young men are beginning to wonder whether they will have to fight for their country.

Truth is an interesting objective for human research but it is what many people fear the most.

There is some sense in the reminder that, under Communism, there are no profits.

It is never safe for a rich country to assume that nobody will dare attack.

Let's eliminate the profits out of war, if we can and we think we can.

Russia is making some progress in her system of aggression by proxy.

Why This Unpreparedness In Face of Billions For Defense?

All of us were thrilled when we heard the other day of the mass attack upon the Reds by the flight of big bombers which dropped 880 tons of bombs on the massed troops.

The next day we read that the Reds were making their planned attack in spite of the air attack.

Warfare has devised a large number of death dealing implements, but so far none have replaced the devastating effects of the foot soldiers.

We drop bombs from the skies and wreck towns and cities. The attacking soldiers duck into shell holes.

Our heavy artillery throws huge shells into the attacking troops, but they continue to attack.

The bombs and shells reduce the towns and villages, and bring great property damage and physical discomfort. We have been through both of these experiences of warfare; and it is no picnic.

After all, the foot soldiers have always been the backbone of warfare. The tanks, jeeps, heavy guns and planes are all vital auxiliary to this branch of the service. And let it be remembered that none of these branches of service could long survive without the industrial power of this nation, plus an adequate and alert navy to carry the supplies.

Fighting a war is a big job. We need and must have all of these branches of service.

With all of the billions of dollars which have been appropriated for war preparation, Americans still wonder why there was no preparation and we were caught flatfooted in Korea?

Your Patriotic Duty and Privilege Is to Go and Vote

Your patriotic duty calls for you to go to the polls and vote on August 26.

Those who think that they are so busy that they cannot afford to take the time to go to the polls should recall the fact that our forefathers battled to secure the right of free representation at the polls. They should not overlook the fact that in nations which are not Democratic the right to vote is either entirely denied, or only names of the state-approved candidates are on the ballots. To vote against the chosen few means certain death.

We are privileged to go to the polls and vote just as we please, and no one can tell you or direct you in making your choice of candidates.

It is a privilege to live in a free country, and we should return our thanks for this privilege by assuming some of the obligations of citizenship, which is the right to vote.

It might be a good idea for the government to publish the names of all those who are receiving disability benefits—the public might be surprised at the number of able-bodied citizens who were "hurt" during the last two wars.

You can acquire a liberal education if you read the newspapers of the thirties and see what the big business boys were saying about what would happen if certain laws that were passed were passed.

If business men will organize themselves to stop graft and corruption, instead of trying to scare the people with silly bogeys, they will rend their country a service.

When the first shot was fired in Korea thousands of business men in the U. S. looked with glee upon the record of the profits they made during World War II.

Money is not the main strength of the organized churches but, since they operate in a material world, they need some of it; give your share.

Civilization may be the product of the world but it depends very largely upon the United States for its present defense.

Miss Mary Jo Tomlinson and Richmond Hales Exchange Wedding Vows Friday Evening in First Methodist Church

MRS. RICHMOND HALES

The First Methodist Church was the setting Friday evening for the marriage of Miss Mary Jo Tomlinson, daughter of Mr. and Mrs. Floyd Tomlinson, and Richmond Hales, son of Mr. and Mrs. H. B. Hales of Amarillo. Joe F. Watson, minister of the Church of Christ, officiated.

A nuptial prelude by organist Max Bellah included "I Love You Truly" by Bond, "Romance" by Rubinstein, "Lord's Prayer" by Malotte, "Salute d Amouv" by Elgar, "Because" by D'Hardelot, "Always" by Berlin and "Melody of Love" by Engelman. Mrs. H. R. Fulton, Jr., sang "Indian Love Call" by Debussy and "My Hero" by Oscar Strauss, "Unto Thee O Lord" was sung as a benediction by Olin Huff of Wichita Falls. Background music during the exchange of vows was "Clare de Lune" by Debussy.

The double ring ceremony was read before a satin draped altar behind which were three large arches covered with huckleberry foliage and topped with large bouquets of white mums. Behind the arches and surrounding the organ were large improvised trees of emerald foliage, forming a solid background of dark green leaves. On each side of the altar were large standards filled with sky blue delphenium tied with white satin bows. Large cathedral style candelabra entwined with garlands of huckleberry foliage tied with matching satin bows were used on each side of the altar. In each window was a three-tiered candelabra covered with huckleberry foliage.

Wearing identical pale blue satin dresses, candle lighters Miss Nancy Kay Tomlinson, sister of the bride, and Miss Frances Kay Golden, cousin of the bride, carried candles with nosegays.

Miss Norma Jean Tomlinson attended her sister as maid of honor. Her dress was styled with a long bodice of blue satin and skirt of blue faille with handmade flower pedals and streamers of illusion at the lowered waist line. She carried a cascade of bouquets of blue delphenium. Bridesmaids were Misses Martha Hales of Amarillo, Billie Jo Cluck of Hart, Julie Moreland of Silverton, and Mary Frye of Dawn. Their dresses were identical with that worn by the maid of honor. Their hats were styled after that of the bride and they carried cascade bouquets of blue marconi daisies.

Given in marriage by her father, the bride was attired in an Emily gown of antique white bridal satin cut on princess lines with a deep yoke and long fitted sleeves of shirred nylon net coming to a point. The yoke and bodice were joined with a band of imported Point De Lyons lace. The band of lace was repeated where the full skirt joined the bodice and extended the full length of the skirt on each side of the cathedral train. The opening down the back was joined with tiny satin covered buttons. Her finger tip veil of imported nylon English illusion with a hand-rolled edge was attached to a handmade Point De Lyon lace cloche studded with rhinestones and seed pearls. She carried a handmade lace hankerchief from France and the traditional something borrowed, new, and blue; for something old she wore a watch penant belonging to her grandfather's sister.

Her corsage was centered with a white orchid from which cascaded lily of the valley and small white orchids.

Billy Jess Cox served the bridegroom as best man. Groomsmen were James Lair and Jones Hales of Amarillo. Harold Jay Prichard and Pat Campbell served as ushers.

For her daughter's wedding Mrs. Tomlinson chose a Carmel crepe dress with navy accessories. Her hat was of French blue velvet trimmed with flowers. Her corsage was of blue delpheniums.

Mrs. Hales was attired in a navy crepe dress with navy and rose accessories. Her corsage was of pink rosebuds.

Immediately following the ceremony a reception in the bride's home honored the couple. The serving table, laid with a linen cut work cloth, was centered with an arrangement of pink roses flanked by white tapers in single crystal candelabra.

For her wedding trip to Salt Lake City and other points, the bride selected a beige suit of imported wool trimmed in Eaton tan with matching accessories. Her corsage was a white orchid.

Mrs. Hales was graduated from West Texas High, attended the University of Colorado at Boulder one summer, and finished her college work at West Texas State where she received her degree this spring.

Mr. Hales graduated form West American School of Auctioneering in Mason City, Iowa. He plans to be engaged in farming, dairying, and auctioneering.

After September 1 the couple will be at home at 1300 Fifth Avenue in Canyon.

STRIKES

The Bureau of Labor Statistics reports that the number of workers on strike in June dropped 20 per cent from the May level. The number of man-days lost totaled 3,000,000, compared with 2,750,000 in May. The number of new strikes dropped from 450 to 425, but the June walkouts still involved 260,000 more workers.

REALLY SURE

They were going to visit a friend who had moved out into the country.

"John," said the wife, "are you sure you know the way out there?"

"I know it as well as your hand does the way to my pocketbook," he growled.

EXPLAINED

Pete: When I arrived in Washington I didn't have a single cent in my pockets. In fact, I didn't have any pockets.

George: How on earth did that happen?

Pete: Oh, I was born here.

CAREFUL

"The motorist that hits me will certainly be sorry," said the dusty pedestrian.

"Why?" asked his companion.

"Because," said the other, "I'm carrying a stick of dynamite in my pocket."

ABSTINENCE OR ELSE

"So you attribute your longevity to abstinence from alcohol?" inquired the inquiring reporter."

And the centenarian admitted, "Yes, my wife would have killed me if I had touched a drop."

Capt. Eddie Rickenbacker, aviator, speaking of Third World War: "No one can win World War III, morally and financially. It will mean the economic ruin of this land of ours and therefore, the economic ruin of the world."

Choir to Have Maroon Robes

The College A Cappella Choir will have a brand new set of beautiful maroon and white robes this fall, according to a recent announcement by Houston Bright.

The colorful new vestments, which will robe a maximum of 65 members, will be made up of maroon basic garments with auxiliary pieces of white satin. Over their maroon robes the girls will wear full white satin surplices with long, pointed sleeves. The boys' robes will be adorned only with extremely narrow, classic stoles of white satin, squared at the ends.

As presently planned, the robes were designed by Director Houston Bright in conference with representatives from the McDowell Brothers factory in Oklahoma City. An official of that firm will be on the campus Friday, September 22, to take personal measurements of the members of the 1950-51 choir.

PRACTICAL

Freshmen at Harvard, it is alleged, learned how to operate pay telephones with a penny. And we trust this will give pause to those who think our colleges waste time on non-essentials.

"I never knew what happiness was until after I was married," stated a screen idol. People shouldn't brood over the past.

Book Club Offers Erdman's Novel

"The Edge of Time," Loula Grace Erdman's most recent novel has been been chosen at the 1950 October selection of the Family Reading Club. Miss Erdman, assistant professor of English and teacher of Cerative writing at West Texas completed the book this summer.

The novel is a historical picture of life in the frontier days of Texas. Romance, hardships and excitement of the old days blend together to produce a very interesting novel.

This is Miss Erdman's first book of the Panhandle. Her previous novels have dealt mainly with life in her native state of Missouri.

Receiving her bachelor's degree from Central Missouri State Teachers College at Warrensburg, she also received her master's degree at Teachers College, Columbia University and later attended the Universities of Wisconsin and Southren California. She has been teaching at West Texas State for the past several years.

ON THE JOB

The Motorist: Say, friend, my engine's stalled. Think you can help me find out what's the matter with it?"

Constable Talltimber: I can, but I won't just now. I can't pinch you for speeding, but in ten minutes I'll fix your engine an' then pinch you for parkin' here too long.

There will be no more wars when nations learn how to completely break each other without fighting.

Frankie Phillips Is Honored With Bridal Parties

Miss Frankie Phillips, bride-elect of Charles Giesler, was honored with a buffet supper in the Robert P. Jarrett home on August 14. The serving table was centered with an arrangement of sweetheart roses. The honoree was presented with a linen wedding gift.

The guest list included Mr. and Mrs. Tom Knighton, Jr., Mr. and Mrs. Ernest Sykes, Mr. and Mrs. Bernard Warren, Mr. and Mrs. Andy Walsh, Jr., Mr. and Mrs. Lewis Hinders, Mr. and Mrs. Frank R. Phillips, Miss Betty Phillips and the honoree.

Friday at noon Mrs. Jones Christian of Claude complimented Miss Phillips with a luncheon for a small group at the Marine Grill in Amarillo. The honoree was presented with three pieces of her silver.

Before leaving Dallas where she has taught in the Country Day School for two years, Miss Phillips was guest of honor at two parties. Mrs. Fred DeWalde entertained with a bridal shower in the home of her daughter, Mrs. Robert Thurman, Jr. of 2722 Grande Avenue. The bridal theme was carried out in games for the guests and a quiz for the honoree. Prizes were kitchen and household articles. Centering the table on which the gifts were arranged was a large heart with a yellow satin ribbon on which was inscribed "Frankie and Charles, August 25" across it.

Bouquets of yellow and white dahlias decorated the patio where the guests enjoyed assorted sandwiches, fruit punch, cakes and ice cream.

The home of Mrs. Charles Montgomery of Dallas was the scene of a kitchen shower for Miss Phillips on July 14. Games pertaining to household hints and foods were played. The clever centerpiece on the gift table was a doll made of a milk bottle, dish mop, plaid dish towel, sugar scoop, and buttons.

Refreshments of pineapple-marshmallow parfait, nuts and coffee were served to the eleven guests present.

Mrs. Montgomery and Frankie were room mates at Texas State College for Women in Denton.

Mr. and Mrs. A. Q. Maloney of Vernon spent the week-end in the A. D. Prater home.

Alice Hix Marries Bill J. Parsley In Abernathy

Before an altar banked with baskets of Picardy gladioli, tropical foliage and cathedral tapers, Miss Alice Hix, daughter of Mr. and Mrs. Nash C. Hix of Abernathy, became the bride of Bill J. Parsley, son of Mrs. Ray A. Jordan of Lufkin Saturday night at 7 o'clock in the First Methodist Church at Abernathy. Miss Hix is the niece of Mrs. L. D. Winn and L. L. Hix of this city. The Rev. George D. York, the Methodist pastor, read the double-ring ceremony.

Mrs. C. E. Givens, pianist, accompanied R. G. Richards as he sang "Because" and "One Alone." Before the ceremony, Mrs. Givens played "Liebestraum," "Etude," by Chopin and "Always." The traditional wedding marches and the DFD club song were played.

The bride given in marriage by her father, wore a dress of white lace over white bridla satin and a swinging ballerina-length skirt and a small rounded stand-up collar which was met in the center with small satin and lace covered buttons extending to the waist. Her headdress of white, formed a bonnet-like brim made of illusion with a narnor ruffle on the edge. The brim was crisscrossed with seed pearls. She wore white satin opera pumps. The bride's bouquet was of gardenias and fleur d'amour.

Attending her sister as maid of honor, Miss Hix wore a dress of peach organdy over peach taffeta fashioned after the bride's. She wore orchid shantung opera pumps and carried a bouquet of orchid glamelias and tropical foliage. Bridesmaids Mrs. Billie Harrison, Misses Margaret Clark of Van Horn, Patsy Riley, cousin of the bride, and Thala Foster of Lockney wore dresses identical to the maid of honor's and carried bouquets of peach glamelias.

Clint Formby of Colorado City served as best man. Ushers were Bob Nash and Lane Erickson of Lubbock, Billie E. Harrison and Joe Prance of Sulphur Springs.

The parlor of the church was the scene of a reception following the ceremony. The couple was assisted in receiving by their mothers, and members of the wedding party.

For her traveling the bride chose a rose handmacher suit with beige and brown accessories and a corsage of gardenias. After a wedding trip to Colorado and New Mexico, the couple will be at home at 3105 Twentieth in Lubbock.

The bride is a May graduate of Texas Tech, where she was chosen junior and senior class favorite, president of the Women's Inter-Club Council, 1949-50, and a member of DFD. The bridegroom, who is an announcer for station KCBD in Lubbock, will enroll as a junior at Tech in September. He served on the student council last year and has been elected for the coming year.

Parents Notified Removal Body of Oscar Smith, Jr.

Mr. and Mrs. Oscar A. Smith of Canyon have received additional information concerning their son, the late Lieutenant Junior Grade Oscar Leon Smith, Jr.

A letter from James B. Clearwater, chief of the Memorial Division, read "The American Graves Registration Service in their search for deceased American personnel recovered certain remains from the area in which your son and other of his comrades met their death. As individual identifications could not be established at the time of recovery, unknown designations were assigned pending further investigation, and temporary interments were made in a United States Military Cemetery overseas.

"The investigation has now been completed and it has been impossible to individually identify your son's remains. It has been established, however, that the remains recovered are the only recoverable remains of your son and the six comrades with whom he lost his life. This group of remains are now casketed, and being held overseas, pending return to the United States for interment in Zachary Taylor National Cemetery, located at Louisville, Kentucky."

This Is YOUR Business

The cost of our Texas State Government has more than trippled in ten years and has more than doubled in the past four years.

The 1949 session of the Legislature provided for state expenditures totalling more than $514,000,000 in 1950—an increase of over $110,000,00 in state expense over 1948.

This is YOUR business. And it's your money that finances this enormous business.

The time has come when Texas must be given a "breathing spell" to adjust its spending in order to keep within the limits of its available revenues.

MORRIS G. COBB is opposed to a sales tax, income tax, or any other similar tax under a misleading name.

MORRIS G. COBB favors all reasonable moves toward advancing economy and efficiency in our Texas State Government.

BIG SNAKES

Boa Blacks Out Panama

WASHINGTON—It was like wartime blackout again, when Uncle Sam's Panama Canal Zone, on the Pacific side, was plunged suddenly into darkness on two recent occasions. But it was no enemy threat or attack that brought brief light and power failure to this strategic Atlantic-Pacific route. It was just a couple of wandering boa constrictors which had climbed a tower and struck a high-voltage transmission line.

The boa constrictor is a formidable snake of tropical America, although not in the class of the giant anaconda, or water boa, of central and South America, it reaches a length of 10 to 15 feet.

Since the boa constrictor may be as big around as a man's leg, and weigh 50 pounds or more, one can easily imagine what it would do to a transmission wire, and in the case of Panama's 44,000-volt line—vice versa.

Name Is Misused

The term boa constrictor is often popularly misused for any big snake, including the pythons of Asia and Africa. Properly, the name belongs only to the second largest serpent of the new world tropics. now called by scientists constrictor constrictor.

This constrictor is a non-poisonous member of the reptile family that squeezes or constricts its prey to death. It is a good climber, and sometimes captures birds and small animals by reaching out from a tree or branch around which it has wound its tail.

As the boa constrictor's skin is capable of extraordinary expansion, it can swallow animals of some size; but tales of its devouring large horned deer and grown men are discredited. Actually, it usually avoids humans when possible, and is thus relatively harmless to man, despite the fears of many natives living in its neighborhood.

Docile When Tame

This snake, especially the South American variety, is a handsome one. Its brownish background, shading to brick-red at the tail, is decorated with striking elongated bars of tan, cream and other colors. The Central American specimens are less colorful but larger than those of South America, and have a reputation for vicious dispositions.

When first captured, boas are often savage, the Central America type striking and hissing like steam radiators when approached. Once tamed, however, most of the snakes are docile, and therefore much in demand for zoo and circus exhibition. Sales prices quoted by animal brokers may be eight to 10 dollars per snake foot.

Serpent dealers and exhibitors recall many odd and amusing incidents in handling their unwieldly charges. One collector, transporting two South American boa constrictors to the United States, was required to "brush their teeth," when they picked up a mouth infection. With the aid of several sailors holding the long reptiles down at various points, he was able to use a spare toothbrush to wash out the boas' mouths with healing peroxide.

Last fall, Paris strollers, seeking nothing more exciting than a browsing trip along the book stalls of the left bank of the Seine, encountered a torpid 10-foot boa stretched out on the sidewalk where it had apparently dropped out of a passing circus truck.

Flagpole Saves Man From Death in 3-Story Fall

SPRINGFIELD, Mass. — Henry Lefeave was watching a parade of veterans in Springfield from the third-story window of his hotel. Suddenly he toppled out and lived to tell about it.

As he fell toward the crowd below, he grabbed the flagpole jutting from the third-floor window.

The pole was too frail to hold his weight. It bent perilously and he caught hold of a sign bracket on the front of the building.

He hung there several seconds before losing his grip.

He fell about 10 feet, but managed to grab a chain supporting the lower end of the sign.

By this time, his plight was noticed by other parade spectators. Several broke through the line of march, ran up the stairs of the hotel, and hauled Lefeave in a second-floor window as he was about to lose his grip again.

Lefeave suffered minor back and head injuries. His acrobatics broke up the parade.

Siamese Twins Born At Brooklyn Hospital

NEW YORK—Twin boys who have two heads, four arms and two chests, but only a single trunk and only two legs were born recently at Kings County Hospital in Brooklyn.

Named Peter and Paul, attendants reported they were doing nicely and had even developed personalities. Their parents have ignored them and no one else seems interested in them.

Physicians say the twins never will be able to walk. And, because of the way they are joined, it will be impossible to separate them.

Hitler's Campaign Failed to Stamp Out Love for Jazz

DUSSELDORF, Germany — During the reign of Hitler, American jazz was "verboten" to German teen-agers. But his theory didn't take.

Duke Ellington, touring Germany for the first time since the war with his band, said he found the best audiences he ever played to in Germany.

"While American swing was banned in Nazi Germany, I found that most of the young people I talked to listened secretly," he said. "They know my oldest records. Two told me that they had served concentration sentences for playing my jazz records.

"Others said they used to take a gramaphone out in a canoe in the lake for 'sneaking sessions.' They know as much about it as any American youngster."

The 6,000 youths who filled the Apollo, western Germany's only de luxe movie vareity theater, were poorly dressed and the four marks (about one dollar) they paid for admission was almost a fortune to most of them.

Outside the theater some 2,000 without the price of admission, jitterbugged on the streets as the strains of "St. Louis Blues" filtered through the open doors.

A newspaperman noticed a Communist youth who had helped break up a political rally the night before. He obviously was frightened and embarrassed at being caught listening to jazz, now verboten to the Communists as it was to the Nazis.

"I was overcurious," he said wistfully and melted into the crowd.

21 Japs on Pacific Island Still at War With U. S.

HONOLULU, H. I. — Twenty-one Japanese are still at war with the United States.

The navy has announced that the island of Antahan in the northern Marianas is so small and unimportant it won't risk sending a landing party to take the 21 Japs still holding out against American forces.

The navy has tried everything short of war to get them out. Pamphlets and food have been dropped from planes. Boats circle the island broadcasting over loud-speakers that World War II is over.

The Japs are not convinced.

The navy said it hopes the Japanese will "tire of their present existence and surrender." One Japanese woman surrendered to a small navy field party June 30.

Torso of 18-Year-Old Boy Found in Stomach of Shark

GALVESTON, Tex. — Galveston officials were horrified and puzzled when they found the torso of a youth, perhaps 17 or 18 years old and between five feet and five feet five inches tall, inside a shark.

The skipper of a shrimp boat told puzzled officers his crew netted the nine foot man eater in the bay and tossed the shark overboard in the harbor after it died.

J. L. Naughman, chief marine biologist for the Texas game, fish and oyster commission and an expert on sharks, said the shark could have found its human meal a long way from Galveston. A shark can swim 250 miles in a day, he said. He estimated it would take a shark about three days to digest a human body.

Baughman also said that it is possible the shark did not attack the youth, but devoured the body after the youth had drowned or died in some other manner.

Mother of Youth Who Set Fire to Shrine Kills Self

KYOTO, Japan—Mrs. Shinako Hayashi, 49, mother of the youth who is accused of setting fire to Kyoto's ancient shrine, the Golden Pavilion, threw herself to death from a speeding train "to atone for her son's crime."

Mrs. Hayashi journeyed from her home in Kyoto to see her son. He refused to talk with her. On her return journey she jumped to her death.

Before leaving to return to her home, she told reporters she would die for her son to atone for the crime. Her son, who also attempted suicide, told police he set fire to the pavilion because he was "jealous of its beauty."

Shaw Requested No Gifts, Cards on 94th Birthday

LONDON, England—George Bernard Shaw, who was 94 on July 26, asked not to be reminded of the anniversary. He sent messages to persons who, on the basis of past performances, might be expected to pester him again:

"Mr. Bernard Shaw implores his friends and readers not to celebrate his birthdays, nor even to mention them to him. It is easy to write one letter or send one birthday cake, but the arrival of hundreds of them together is a calamity that is not the less dreaded because it occurs only once a year.

"Acknowledgement of such unwelcome letters and gifts is not possible."

West Texas Announces Additions To Faculty For Fall Semester

West Texas State College's faculty will be increased this fall with seven new members and the return of another member. The departments of Journalism, Music, Geology, Geography, Education, and Home Economics will have additions. The health center will become the home for a new nurse.

T. C. Brown comes to the journalism department from the University of Syracuse, Syracuse, New York where he graduated this past year. A native of Amarillo he attended West Texas for three years before going to Syracuse.

Head of the music department will be Dr. William Presser, coming from the Alabama State College at Florence, Alabama. He is taking the place of Dr. Wallace R. Clark who will be here part time and who has accepted a position as staff advisor at radio station KGNC in Amarillo. Another addition to the music department will be William Latson. Latson is a West Texas State graduate and he received his Masters from the University of Iowa this year. He will be part time instructor of the Buffalo Band and will work especially with the brass section.

Dr. Roy Reinhart will begin work in the Geology department which has been absent from the list of courses offered for some time. He is also curator of geology and paleontology at the Panhandle-Plains Historical Society Museum. Dr. Reinhart received his Bachelor's from Miami University at Oxford, Ohio, Masters from the University of Chicago and Doctors from the University of California at Berkeley.

Wallace E. McIntyre becomes head of the geography department this fall, taking the place of Miss Darthula Walker who is retiring. McIntyre passed his orals with honors toward his Ph. D. at Clark University this year. At present, he is working on his dissertation to complete work for his Doctors. Recently, McIntyre has been teaching at the University of New Hampshire.

Hatcher Brown will be added officially to the college faculty though for the past several years he has been coach and Physical Education instructor at the Demonstration School. In his new capacity he will be both Physical Education and Education instructor, devoting half his time to each.

College nurse for the coming year is Mrs. Maxine Brown of San Antonio. Accompanying her will be her 9 year old son and her mother. Mrs. Brown attended school at San Angelo Junior College, trained at the Shannon-West Texas Memorial Hospital School of Nursing in San Antonio and received her Bachelor's from the Incarnate Word College of San Antonio. She has also studied at Sul Ross State College. Mrs. Brown's husband was killed in action in France during World War II. She is taking the place of Mrs. Pauline Burgess who is moving to Loving, New Mexico where her husband will teach in the public schools there.

Dr. Margaret Barrett will return this fall after a three year leave of absence. She has been working on her Ph. D. during that time, and received it this summer from Iowa State College at Ames. In her absence, Miss Elizabeth Cox has been acting head of the department. Dr. Barrett received her BA from the College of Emporia and Masters from the University of Kansas. She majored in Nutrition, took a first minor in Bio-Chemistry and a second minor in Food Technology.

Some of these new additions to the faculty are already at West Texas and the others are expected to be here in time for the fall semester.

Nation in Danger as Congress Kicks Bill Around Halls

By BEN GUILL
Congressman 18th District

During the last few weeks I have received literally hundreds of letters from the Panhandle asking why the United States Government persists in coddling Communists at home at the same time that it is sending American boys overseas to fight Communists abroad. This letter is typical:

Dear Congressman Guill:

"While our boys are over in Korea fighting the Communists we are over here coddling them: I am sick and tired of their insults and slander. Send them to their beloved Russia. Get rid of them any way you want, but get rid of them.

"My two last boys have gone into the United States Navy and I'm proud of them. But I can't stand by and see the very thing they are fighting stand up in our own country and mock us and plot our downfall. I insist that something be done right now."

The letter was signed by a mother in Amarillo.

I agree with this mother entirely. It's disgusting and bewildering that this government should give aid and comfort right here in Washington to those who wish to destroy us. We have been far too delicate about interfering with the so-called "civil rights" of those who would annihilate all civil rights if they had their way.

The most likely instrument of thwarting Communist infiltration into our Government is that Mundt-Nixon Bill. This Bill would make it obligatory for every Communist in the country to register and would set severe penalties if this regulation were not complied with. It would also make it a serious criminal offense for a Communist tc accept or retain a position in the Federal Government or for a a Government official to employ a Communist in a Federal position. The Bill would also make it obligatory for Communist front organizations to register and for the members of such organizations to make themselves known to the authorities.

The Mundt-Nixon Bill makes good sense. You would think it would be passed into law by acclamation. But it has had a very peculiar history in Congress.

In 1948 the House passed the Bill by a huge majority. However, the bill never was reported out by the Senate Committee on the Judiciary. Oddly enough, the Republicans dominated the Committee at that time but they held up the Bill because there was some doubt about its constitutionality.

The objectionable parts of the Bill were amended and the Bill was re-introduced during the present Congress. The Senate Committee reported it our favorably, by a vote of 12 to 1 seven months ago. That left it squarely up to Democratic Senator Scott Lucas of Illinois, the Senate Majority leader, to bring it up for a vote. Senator Lucas, acting on Administration orders, has refused to bring the Bill up for a vote. In the meanwhile, the Mundt-Nixon Bill has been locked up in the House Committee for seven months. The hearings were completed seven months ago but there has been no committee action.

The committees are dominated by administration committee chairmen who are almost dictators when it comes to reporting legislation out for action on the floor.

Why has the Mundt-Nixon Bill been kicked around? Because of pressure from special interest groups with bloc votes to deliver. The Political Action Committee of the CIO has been particularly active in defaming the Bill. The argument has been that the Bill would violate "civil rights" and would create a Star Chamber which would be able to persecute anyone who disagreed with it.

Of course, the Bill would do nothing of the sort. It requires that hearings be held on every disputed case. Under the present procedure, the Attorney General, on his own responsibility, issues a list of organizations from time to time which he labels "Communist Front." This is done without any hearings at all. That is Star Chamber procedure, if you will.

Despite the threat of a fifth column within our own government, the powers that be have been playing politics in the face of national disaster. It is my opinion that once the Mundt-Nixon Bill became law you would see hundreds of Reds and fellow-travelers scurrying out of government employment.

Certainly, anyone who plays politics with important legislation such as this is being a bad American. Consider this: the Department of Justice now believes that Russia would not have the atom bomb today if traitors within our own Government had not given the Communists our secrets.

Democratic Senator Pat McCarran, of Nevada, is at this moment trying to lift the provisions of the Mundt-Nixon Bill and put them into a Bill of his own. A quick check on the Senate revealed that only twelve Senators will oppose the Bill.

However, it doesn't matter if the legislation is introduced as a Republican or a Democratic Bill. Politics is of small importance, if any, when the fate of the nation is at stake. The important thing is to get the Bill passed as soon as possible.

Some of our most left-wing Congressmen who have opposed the Bill bitterly are now beating their breasts and shouting "Me Too" in favor of the Bill. They've been hearing from the folks back home. The folks back home are angry and they have a right to be.

I've said this before, but one cannot repeat it too often.

This country is in danger. Its danger is worse than at any time in its history. Anyone who can't put the safety and future of this country above politics should be kicked off Capitol Hill. This is no time for partisan politics or bi-partisan politics. This is a time for non-partisan Americanism.

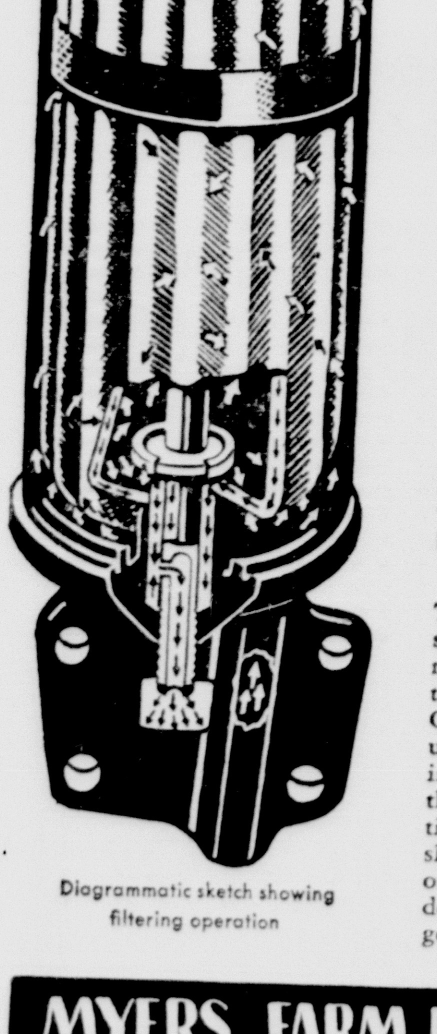
TO KEEP YOUR ENGINE HEALTHY
Change FILTER ELEMENTS Regularly



Diagrammatic sketch showing filtering operation

The oil filter on your McCormick-Deering tractor protects the engine against wear caused by dirty oil. But unless the filter element is periodically replaced its purpose is defeated and *no protection* results. For your engine's sake . . . and the sake of your tractor investment . . . be sure to renew the filter element each time you change oil. Remember, the new-style "umbrella" element keeps oil clean and your engine protected for 120 hours of hard use (100 hours for Diesel engines).

Take home a supply of these protective elements the next time you are in town.

HOW THE "UMBRELLA" FILTER ELEMENT WORKS

The element is made of two large sheets of special creped, impregnated cellulose—accordion-folded to form a double-walled cylinder. Oil from the crankcase is pumped under pressure into the filter housing where it completely envelopes the element. The oil is forced through tiny pores in the element and all sludge and dirt is retained on the outer surfaces. The clean oil passes down between the two sheets and goes back to the crankcase.

Purchase $13,000 Bus for Student Transportation --- Canyon-Amarillo

Another step in the direction of modern education has been taken by West Texas State College. A $13,000 bus, modern in every detail, has been purchased from the Flexible bus company to be used to take West Texas State students to and from Amarillo. The bus is scheduled to arrive in the latter part of August and the first trip will be made September 12.

Only West Texas students and faculty members will be allowed to ride the bus as it is strictly for college business. Tickets with a number of punches will be sold for those riding the bus often, and one trip tickets will be sold to those riding only rarely. Cost of the tickets will be $11.25 for 25 round trips and 55c cents for one round trip. Total cost for a semester of 100 round trips is $45.00.

The bus will seat 35 comfortably, and is styled on the lines of the big bus line coaches. It is to be painted the school colors, maroon and white, and have West Texas State written on the sides.

Beginning the route in Amarillo at 7:00 o'clock in the morning it will reach the campus in time for 8:00 o'clock classes. The bus will leave again at 12:00 noon and return in time for 1:30 afternoon classes. It is tentatively scheduled for the bus to make the final return trip of the day back to Amarillo at 4:30.

The route now set up will begin in San Jacinto, down West 6th to Tyler, south on Tyler to 16th, out 16th to Harrison, making a stop at Amarillo Center, down Harrison to 23rd, out 23rd to Washington, down Washington to the highway and on to Canyon. If a large number of students reside in an area not included in the route, the route can be changed to accommodate them.

A bus driver will be hired by the college to make the trips Monday through Saturday. No outsiders will be allowed to ride the bus.

Here's an interesting commentary on cowboy manners, written by Curtis Kimmons in the Amarillo Times.

"The cowboy," writes Mr. Kimmons, "may lack the finer polish that education is supposed to bring a man, but he is never lacking in the rules of common, everyday manners. . . . When you see a man with boots and a big hat enter an elevator, you can safely bet that the hat will be removed if ladies happen to be present; and if you see him talking to a lady on the street, his hat will be in his hand. He has not been taught these things. It is simply the inborn courtesy of the man on a horse which is at work.

"In the old days of the West, when men were rough, the horses wild, and the man who had the longest six-shooter was the law, etiquette naturally was somewhat different from that of today. But when the cowboys of that time attended a dance, they stacked their guns at the door, and if it became necessary for them to fight, they went outside to do it. In extreme cases, they managed to do their killing where it would cause the least inconvenience and the least shock to the ladies.

"If a man was introduced to another and had to get down from his horse to shake hands, he always dismounted on the side next to the man to whom he had been introduced—even if he had to turn his horse completely around. Dismounting from a horse from the off side could be taken as an unfriendly act because the horse would act as a shield against the other fellow's bullets in event of trouble. The oldtimer observed these unwritten rules because they were the eitquette of the range, and the man who failed to do so was placed in the same category with skunks, rattlesnakes and rustlers.

"Watch a cowboy talking to a group of men, especially if the others are city dwellers. See how he had the knack of letting the other fellow do most of the talking while he listens respectively. If on the other hand, it becomes necessary for the cowboy to give an opinion, see how he delivers it without giving offense to his listeners. They may not agree with him but they will listen, because the opinion is the honest and unreserved conviction of a gentleman, and can be accepted as such.

"Watch him carefully while he is in town, then go home with him, partake of his hospitality and view him in his natural surroundings and you will understand why the dignity and the proud bearing of the cowboy are the first things to impress visitors from the east—for his is a heritage that has come down to the man on horseback from the days when knighthood was in flower."

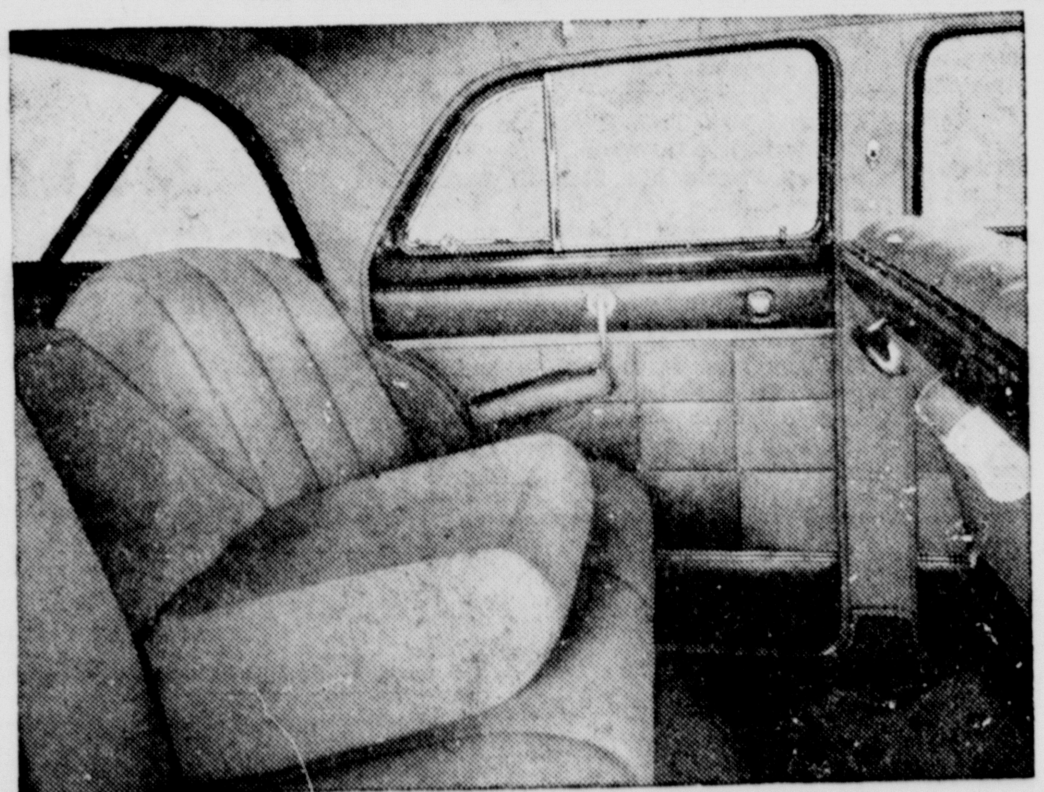
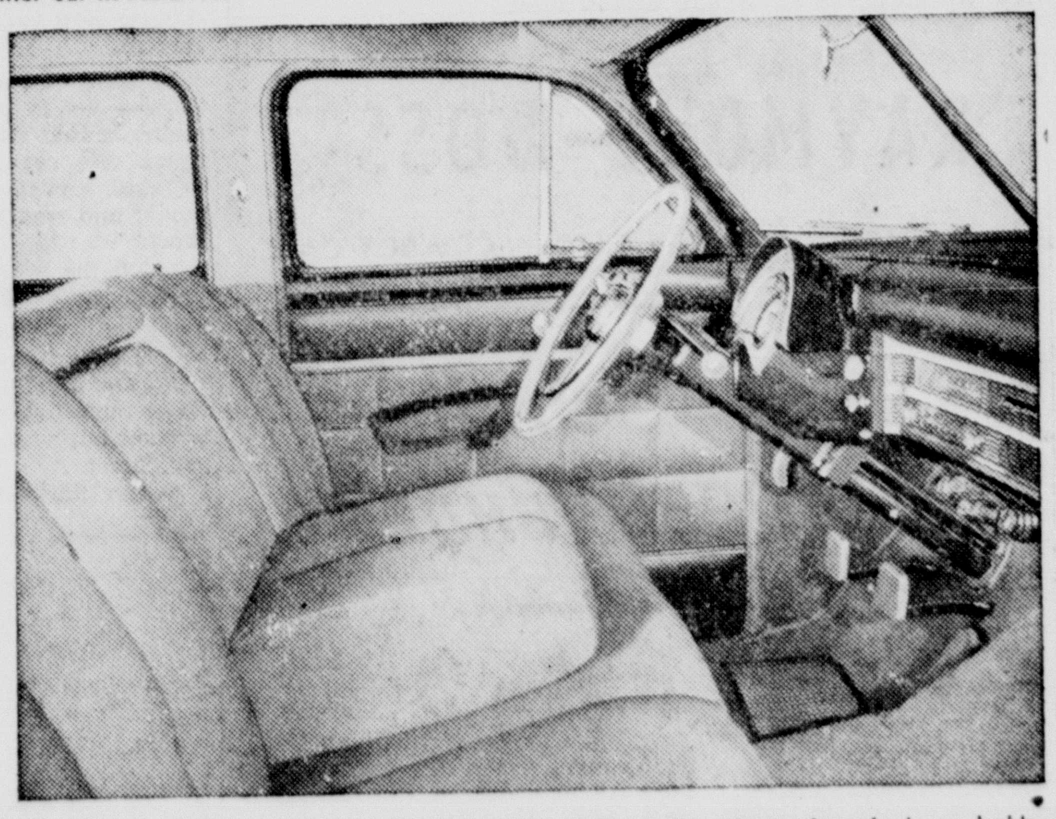
IMPERIAL... is the word for it!

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that excels anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty . . . look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butler-finished chrome. Consider the advantages of Fluid Drive . . . exclusive new automatic transmission . . . Waterproof Ignition . . . Full Flow Oil Filter . . . High Compression Spitfire Engine . . . electric window lifts . . . the CLEARBAC rear window for exceptional driver vision . . . and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering . . . and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. *Inside or out, there is no finer car in America!*





ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control! Each window has its own separate electric motor . . . each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other de luxe features . . . the kind you think of as being in the "special order, extra cost" category . . . are STANDARD EQUIPMENT on the Chrysler Imperial. For example: armrests on all four doors . . . foam rubber seat cushions and seat backs . . . double-width center armrests in front as well as rear seats . . . stainless steel wheel covers . . . white sidewall low-pressure tires . . . carpeted luggage compartment! Full flow oil filter and many other engine features! Yes, you get all these extras as standard equipment with your beautiful new Chrysler Imperial.

New beautiful Chrysler Imperial . . . one of 21 lovely Chrysler body styles!

Grady Hazlewood In Humorous Talk on Politics in Texas

Senator Grady Hazlewood of this district was the speaker at the Rotary Club Luncheon Tuesday, humorously describing his political races and what it takes to become Governor of Texas.

"Anyone can become Governor of Texas provided he belongs to the right church, was reared on a farm, and has the right platform," stated the Senator. He drew incidents from his own campaigns to illustrate his points.

Politicians are interested in two things: How to get in; and how to stay in.

In spite of the fact that we are in war up to our necks, we still maintain that we should carry on as usual. We sent men to war who were not armed; who had no equipment; and who had only rations of World War II. Russia is taking us through the process of exhaustion.

"We will have no better government than we have today until the people take time to go to the polls 100% and carefully select their public servants," stated the speaker. "It is good business to look after your government."

As an illustration of how little Texans know about their government, Senator Hazlewood showed letters which had been addressed to him at Washington; and how little Texans know of their office holders.

Dr. L. F. Sheffy introduced the speaker, giving his background while a citizen of Canyon.

Visitors were: Gene McGlasson, Jr., Bert Master, both of Canyon; Dr. Sam Johnson of New Orleans, La.; Morris Cobb, G. E. Smith, Jr. Joe Rogers, Guy Carlander, Carl Franz, Francis Roberts, Howard Armick, Herman Ford, J. H. Yeary, J. O. McGuire, W. F. Perkins, Jim Pierce, Tom Gallaher, all of Amarillo; Thurman Richradson of Panhandle.

Fairview Breezes

You who missed church Sunday missed a treat as Bro. Getter delivered two fine sermons.

Mr. and Mrs. T. J. Myers are on a fishing trip to Colorado.

Harvey Rogers has been ill the past few days.

Mrs. F. M. Brazil is in Scott and White Hospital in Temple, Texas, having a series of leg operations. She asks that her friends in this vicinity write her at the hospital.

Mr. and Mrs. E. M. Wilson and boys are expected home Sunday afternoon.

Mr. and Mrs. G. E. Wesley, Lavena Amerson, and Mr. and Mrs. Frank Rogers attended singing at Canyon Sunday afternoon.

Mr. and Mrs. John Patterson have as their guest this week Mrs. Patterson's niece from Amarillo.

Almost everyone from this vicinity attended the picnic at Happy Saturday.

Miss Lou Ella Patterson made a yard tour of this community Friday. The call meeting of the home demonstration club in the home of Mrs. E. W. Schaeffer Thursday resulted in another call meeting next Thursday to paint the signs for the club. Everyone is urged to name his farm, paint the name on a sign, and hang it where people passing can see it.

Mrs. Richard Evans' parents from Pleasant Valley visited them Saturday night and Sunday.

Mr. and Mrs. G. E. Wesley and Lavena Amerson were in Tulia and Canyon Saturday.

Mrs. H. C. Evans and daughter, Mrs. George Schaeffer and son Dean, are planning to fly to California for the Golden Wedding celebration of Mr. and Mrs. T. H. Wann. Mrs. Wann is Mrs. Evans' daughter. They will leave Amarillo August 29.

Bro. and Mrs. Jack Getter visited in the J. W. Wesley home Sunday.

Mr. and Mrs. Olin E. Hinkle and sons of Ausitn spent the weekend at the homes of his parents, Mr. and Mrs. J. W. Hinkle and sister, Mrs. Bill Money.

Mr. and Mrs. Larry Roush spent the week-end visiting relatives in Guthrie.

Dr. and Mrs. Earl Gilmore and daughter arrived Monday for a visit in the parental J. Lee Gilmore home in Canyon and Hubert Thomson home in Amarillo. Earl has just completed work on his Ph. D. degree in physical chemistry at the University of California.

Mr. and Mrs. G. W. Harwood and Mr. and Mrs. Fred Harwood spent the week-end in Clayton, New Mex.

1950 Football Squad of W. T. Returns Aug. 31

Everything is in readiness at West Texas State for the return of the 1950 Buffalo football players to the campus on August 31.

Ground officials and coaches have seen to it that the game and drill fields are in good shape and awaiting the cleated-feet of what many say will be West Texas State's greatest football machine.

When players report they will check out equipment, spend a day with photographers and then settle down to two-a-day drills in anticipation of the gridiron opener Sept. 16 against Arizona State in Amarillo Stadium. From then on it will be a rigorous program to meet nine other tough foes.

A couple of dozen top freshmen prospects will also report for duty August 1, to get in readiness for their traditional 5-game schedule including two tilts with Texas Tech and one with the Hardin-Simmons freshmen.

Some of Kimbrough's varsity kingpins will be a little late in reporting since Uncle Sam will have charge of them in National Guard drills at Camp Hood. However, they are due to report no later than Sept. 4 and the stiff Army program will probably have them in excellent shape.

The football bug has already bitten many Buffalo fans and they have either ordered or picked-up their 1950 season football tickets. Tickets may now be had at either Bob Seed's Sporting Store in Amarillo or at the Campus Shop in Canyon. Mail orders should be addressed to Bob Clark, ticket manager, Canyon.

John Foster Dulles, Republican adviser to State Department:

"Every dollar, every pound, every franc available should be devoted to providing the implements needed for the protection of the free world."

Robert G. Menzies, Prime Minister of Australia:

"If we are unwilling to accept the sacrifices needed for our protection, then war is inevitable."

Fluoride Salts in City Water Will Reduce Tooth Decay

City fathers in three Texas cities, by artificially adding fluoride salts to their municipal water supplies, are making the dream of fewer tooth cavities come true.

Corpus Christi and Marshall have fluoridation systems working now. Austin has one in the installation process.

If things go according to plan, children in these towns will be spared easily half the visits they now have to make to their family dentists, because they'll have fewer cavities.

State Health Officer Geo. W. Cox describes the fluoridation process as a "tremendous step forward in the fight against dental disease. It's simple and inexpensive, as well as effective."

"It won't be a cure-all," cautions Dr. Edward Taylor, director of dental health at the State Health Department. "It won't give children complete protection against tooth decay, but it will reduce decay from 23 to 47 per cent."

He said that range of reduction percentages had been ectablished in departmental experiments with artificial fluoridation in Marshall.

The addition of the chemical to drinking water in the ratio of 1 to 1.5 parts per million parts of water now has been recommended as a decay control measure by the United States Public Health Service, the American Water Works Association, and the Association of State and Territorial Dental Health Directors.

Recommendations are subject to approval of state and local health departments, which has been granted in the case of the three Texas cities.

Marshall began artificial fluoridation in 1946 in a controlled experiment, and as a leader in the field both nationally and locally. Corpus Christi began the water treatment in October last year.

Austin City Manager Walter Seaholm has indicated that orders for equipment have been placed, and treatment will begin as soon as delivery and installation are complete.

Combining the population of the three cities, over 300,000 people will soon be drinking water chemically treated to retard or prevent dental decay.

Zone Meeting of American Legion Scheduled Aug. 29

A zone meeting of the American Legion in which Canyon is a part, will be held in Claude, Tuesday evening, August 29. Canyon is a part of Zone 3 which is made up of Amarillo, Panhandle, Claude, and Groom.

The American Legion Post of Claude is making arrangements to feed about 350 Legionnairs and their wives. They have promised a barbecue chicken dinner to be held in the American Legion Rodeo grounds in Claude which is located about a quarter of a mile southeast of the square. Every Legionnaire and his family in Zone 3 is urged to attend this meeting.

Elmer Padgett of Panhandle is the Zone Commander. George A. Parlow of Canyon is the Commander elect of Zone 3. He will be installed in his office the first meeting of the Zone in September.

Note of the French Government: "Our aim, our sole aim, is to preserve peace."

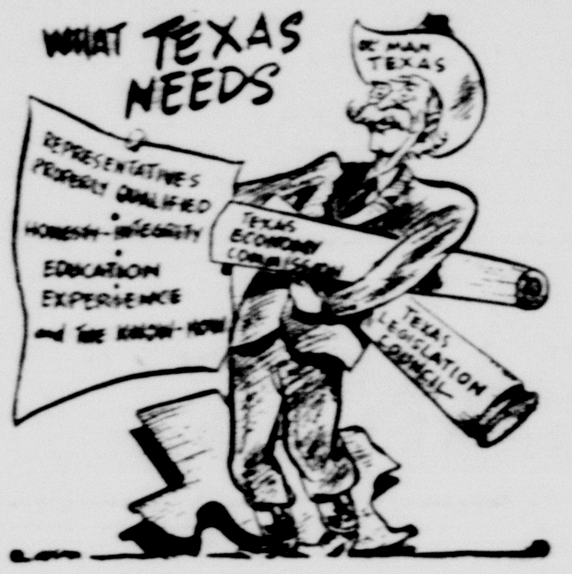
STATE REPRESENTATIVE

123rd DISTRICT

I will represent YOU, no one else. By LISTENING to you. I can better VOICE your needs in Austin. I am NOT employed by any LAW FIRM eager to obtain business from other areas of Texas. I am NOT building up an opportunity for LOBBYING in the future.

I guarantee MORE REPRESENTATION for these six counties. Unless someone keeps up a good FIGHT in AUSTIN during the next two years, the long knives of East Texas will whittle down the representation to which the 1950 census entitles the Panhandle. I promise that I WILL NOT sell-out, or trade-in YOUR INTERESTS.

Old Man Texas has reared me, bought my books and sent me to school, trained me in life, and given me plenty of opportunity. For this I am grateful. He NOW needs a good REPRESENTATIVE from the 123rd District that can meet his requirements. I meet these requirements.



Government is like the frame of a building—it should be built to stand the stresses and strains, and distribute the weight evenly. We need a strong flexible FRAME to hold our DYNAMIC FUTURE. My FRAME FOR THE FUTURE will jealously SAFEGUARD THE FREEDOM, RIGHTS AND INTEGRITY OF THE INDIVIDUAL AND PROVIDE HIM AMPLE OPPORTUNITY TO WORK AND MAKE A FAIR PROFIT. My Frame will make use of the two finest timbers added to Texas Government in more than half century: The TEXAS ECONOMY COMMISSION and the TEXAS LEGISLATIVE COUNCIL giving our State Government strength for the future in the ALL AMERICAN WAY.

Among the real needs of the State is a reorganization of our higher educational institutions. The reduction of needless state spending could make possible an adjustment upward in the appropriation for West Texas State College and the Panhandle-Plains Historical Museum. He is not in favor of the "College Amendment" which would reduce the funds available to such schools as Texas Tech or West Texas State at Canyon. The centralization of Graduate Training at the University in Austin to the exclusion of undergraduate training and the elimination of graduate training at other colleges is to be opposed with the same vigor that any further centralization of our Federal Government should be.

WHERE I STAND

State FINANCES AND TAXATION are important problems today. Excessive taxation strangles business, reduces home ownership, and does not make jobs. I will oppose any change in our tax structure and will do my best to reduce NEEDLESS STATE SPENDING. THE SACRIFICES WE MUST MAKE AS AMERICANS TO STOP COMMUNIST RUSSIA DEMAND OUR STATE SPENDING AND STATE TAXES BE AS LOW AS POSSIBLE. The security of our homes and families REQUIRES IMMEDIATE ACTION thru the Police Power RESERVED to the STATE to confine and JAIL those traitors sympathetic to Bolshevik Russia!

THERE IS NO SUBSTITUTE FOR EXPERIENCE

Korea Unites UN Ties Against the Bear Tactics

There are two diametrically opposed views concerning the origin of the Korean war. One is that it was stimulated by the Russians on the theory that the United States and its allies would do nothing more than write formal letters of protest; that the North Koreans would overwhelm the ill-equipped South Korean defenders in a couple of weeks or so, and that another nation would easily be added to those within the Kremlin's sphere of influence. If that view is correct, the Russians could not have been more wrong.

The other view is grim. It is that Russia anticipated in advance what we would do, and that it was a deliberate, Kremlin-conceived trap. We would spend our resources in Korea, while Russia contributed nothing to the conflict except some equipment and top leadership. In due time, this view holds, the same thing will happen elsewhere—in Iran, Formosa, perhaps Europe. The West will be forced to spread itself paper thin all around the world. Eventually, it will be bled white, and then Russia, with her strength unimpaired, will move in for the kill.

That view is enough to send chills down any spine. There is no question but what a basic Soviet technique is to have other peoples do the fighting. The Asiatics are particularly useful grist in this kind of a mill. They are fatalistic and fanatical. Human life has small value in their eyes. Americans who have been at the Korean front have all been impressed by one dreadful fact—no matter how many of the enemy are slaughtered, they keep on coming in wave after wave.

However, a strong case can be made on behalf of the view that this time the Kremlin woefully misjudged the temper of the United States. The Korean war has done more than any single thing since World War II to cement the Western nations. The United Nations is no longer just a debating society on the international level—it is a belligerent, and its flag flies in South Korea. The war is a U. N., not merely a U. S. operation.

The most encouraging thing that has happened so far has been the response to Trygvie Lie's appeal to the U. N. membership for substantial aid in Korea, including trained ground troops. An impressive list of countries has responded. In many instances, the size of the forces dispatched will necessarily be very small, but the total will be considerable. And, going beyond purely military considerations, the fact that many countries will be physically represented in the actual fighting in Korea must certainly cause some hard thinking in the Politburo. At last, the ranks of the anti-communist world—and it is most of the world—are gathering.

Some time ago Herbert Hoover proposed the creation of a United Nations without Russia and her satellites. This may come about through the force of events. Russia is still a member, of course, but she has small influence now. The great majority of members has served final notice that communist aggression must stop.

Guy Gabrielson, National Chairman, Republican Party:

"When our flag, our freedom, or the peace of the world, is threatened, the people of the United States are united in their resistance."

TO THE VOTERS OF THE PANHANDLE:

I know you are tired of politics, but the decisive election is at hand as you select your Democratic nominee for congressman.

I entered this race a strong believer in local, self-government; I am alarmed at the power given to bureaus and boards, at your tax dollars wasted and at the dangerous trend toward centralization and socialism in your government at Washington.

As your congressman, I will do my part to check these trends, to abolish waste, to get our defense forces adequately prepared; I will do my best to return your government from the bureaus to the people. I pledge my efforts toward a sound, practical and alert administration in Washington, and my loyalty, and unstinted service to all the people of the district.

May I solicit your vote and support in behalf of these aims?

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B_1, B_2, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B_1, B_2, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witnessed statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition.

"In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—'get up and go.' I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL—he asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home—play with the children—work in the yard—fish until midnight! Thanks again to HADACOL, energy and vitality once again course through every fiber of my body. You bet, I too, am now a missionary for this great new HADACOL."

Get That Wonderful HADACOL Feeling Everyone is Talking About

HADACOL gives such wonderful results because it *not only* supplies deficient, weak run-down systems with *more* than their daily needs of important Vitamins B_1, B_2, Iron, and Niacin—but *also* helpful amounts of precious Calcium, Phosphorus and Manganese — elements so vital to help maintain good health and physical fitness.

If you are a victim of neuritis pains, certain stomach and nervous disturbances, constipation, insomnia or a weak, run-down condition due to such deficiencies, HADACOL will start you on the road to feeling better often within a few days. Thousands upon thousands of records of grateful men, women and children *proved* this to be so.

Many Doctors Recommend It

HADACOL is recommended by many doctors not only to their patients but to members of their own families who have such deficiencies. Before giving up hope—you owe it to yourself to *at least* give HADACOL *a chance* to help you. Why keep dragging yourself around feeling "half-alive" when it's so easy to have that *wonderful* HADACOL feeling that everyone is talking about! Trial-size bottle, only $1.25. Large family or hospital size, $3.50. Refuse substitutes.

Mrs. Rounds — Thank heaven for that. It will be a novelty to go somewhere without having to pack.

NOTING A CHANGE

Ole-time strike leaders who shouted, "Workers, arise!" have altered the technique. The revised watchword is "Brother, pull up a chair!"

JUST SO

It seems that two race horses met in the paddock. One said to the other, "I don't remember the mane but the pace is familiar."

Sam S. Douglass, President, Alabama Federation of Labor: "We must remember the damage only a handful of trained sabateurs can do."

Hanson W. Baldwin, military expert: "Effective offers of ground assistance from other U. N. nations amount to about one division."

Otto Dibelius, Protestant Bishop of Berlin: "The Church is the only power which really stands for peace."

ENMU President Addresses WT's Record Graduating Class at Stadium

Floyd Golden, president of Eastern New Mexico University, will be guest speaker at commencement exercises to be held August 23 at 8:00 p. m. in Buffalo Stadium. This is the first time exercises have been held in the stadium, and this is also the first time there have been no baccalaureate services included in the graduation proceedings.

The largest number of summer graduates of the 253 applicants will receive degrees following the address by Golden. Golden received his B. S. from West Texas State College and his M. A. from Colorado University, Boulder, Colorado. An honorary LL.D. was granted him from Hardin-Simmons University, Abilene, this year. He has done advanced work at the Colorado College of Education, Greeley; University of Texas, Austin; and Columbia University, New York.

Preceding his present position as head of the University, Golden was superintendent at different times of public schools in Friona, Miami and Portales, New Mexico. He has been principal at Friona and White Deer. From 1934 to 1941 he was Dean of Eastern New Mexico University in Portales, and since that time has been President.

Golden is an active member of many educational organizations and civic organizations. He is listed in Who's Who in America, Who's Who in American Education and Who's Who in New Mexico. He is also a member of the Board of Trustees of Golden Gate Seminary in Berkley, California.

Graduation practice will be held Saturday, August 19, in Buffalo Stadium. For the exercises, graduates will form behind the stands on the east side of the field, walk across the field to the west side, and take take seats in the section reserved for them. A platform will be constructed immediately facing the graduate section for the speakers and members of the Buffalo Band who will play the graduation marches.

The number of graduate applicants is larger than the number last spring and those applying last summer. For Bachelor of Arts, there are 6 candidates, 129 for Bachelor of Science, 15 for Bachelor of Administration, 36 for Master of Arts, 4 for Master of Business Administration and 74 for Master of Education.

Art Studes Show Semester's Work

Over 100 paintings done by the 122, 402 and 432 oil and water color classes are now on exhibit in the Panhandle-Plains Museum. The display of modern and trational art will continue throughout part of next week. The 29 students of Emilio Caballero will have the best of their semester's work in the art gallery of the museum.

Along with the oil and water color is the use of pastels, made by putting the color on a wet paper and using the fingers and brushes to achieve desired effects.

The paintings all show the free use of color and style of experimental stage in working with different types of art.

Students with paintings on display are Philip Bennett, Ruby Plante, Priscilla Rodgers, Terrance Doane, Johnnie Ashworth, Coral Driskill, Alta Green, Virginia Patterson, Emma Land, Marjorie Brewer, Mary Gillespie, Virginia Moore, Roy Riley. George Turner, Mary Call, Frances Johns, Nancy McClellan, Mary Bledsoe, Mary Nell Lindsey, Ruth Natho, Eula Knight, Jackie Harder, Minnie Beth Joiner, Naomi Smock, Purvy Burrows, Evelyn Cupp, and A. C. Hudson.

Scheduled to be on exhibit in the display cases on the second floor of the Administration building through the week is work in leather, ceramics, and the 210 hobbies class creations, all under the supervision of Al Keiselbach, art instructor.

Registration Dates For West Texas State Are Set For September 12-27

September 12 marks the first day of registration for the fall semester at West Texas State. Registration will continue through September 27, with that day being the last possible enrollment date. Thursday, September 21 has been set as the last day for changing programs. After this date, an additional fee for students enrolling will be $3.00.

Sophomores and upperclassmen will register September 12 while Freshmen are being given their Psychological and English tests at 9:00 a. m. and 2:00 p. m. Freshmen will register Wednesday, September 13, and class instruction will begin Thursday, September 14.

Enrollment will begin at 8:00 a.m. in the Auditorium and will continue through the day. All students must report to the Auditorium in the Administration building to begin the enrollment procedure.

Catalogs and class schedules will be available. 1950-51 catalogs may be obtained now from the registrar's office.

Residence halls will be ready for occupancy Sunday, September 10.

Tuition fees are $25.00 per semester and $15.00 for an activity tickte. The activity ticket admits the student to all regularly scheduled contests of Varsity teams at Buffalo Stadium or at the Gymnasium, admission to lectures and lyceum numbers, subscription to the college newspaper, The Prairie, use of the swimming pool, use of the library and health service.

Students will buy their own textbooks. Additional laboratory fees will be added according to the type and number of courses having all fees attached.

Registration for night courses at Amarillo Center will begin the evening of September 11 and classes will begin September 12. Attendance hours are from 7:00 to 9:40 each night, and each class meets one night per week. The Center is located at 2101 Harrison Street in Amarillo.

This year courses are being offered at the Center in Art, Business Administration, Education, English, Geography, Government, History, Home Economics, Industrial Arts, Mathematics, Sociology, Spanish, Speech and Vocational Education.

Registration fee at the Center, regardless of the number of courses taken is $2.50, the Library fee is $1.00, and tuition for courses ranges from $7.50 for one 3-semester hour course, to $25.00 for four or more 3-semester hour courses.

Home Building Not to Suffer at Present Time

The defense production program now under way will not require any such drastic curtailment of home building and other civilian construction as was put into effect during World War II, according to C. R. Burrow, local building materials dealer and member of the Public Affairs Committee of the National Retail Lumber Dealers Association.

"Although the supply of steel, copper, lumber, and other strategic materials used in housing and other buildings will be lower than in the last few years, because of the allocations program, there should be enough of all materials to permit a considerable amount of private construction, including repair and modernization work, unless defense production is stepped considerably beyond the levels now being contemplated in Washington," Mr. Burrow said.

"The latest information indicates that the partial war mobilization program now under way will require construction of relatively few large war plants and far fewer barracks and war housing developments than were put up during the second World War, because most of those facilities remain available for use in this emergency. Thus, the demand for building materials for defense purposes promises to be considerably less than it was then.

"The government is endeavoring to hold down construction of homes and other new buildings through tightening of mortgage credit terms but, as of now, there is every intention that a fairly large volume of new civilian building will continue.

"Officials in Washington have expressed the hope that it will not be necessary to set up any sort of permit system in connection with private building and are keeping close track of the trend in housing starts with an eye to tightening mortgage terms still further, if necessary, to keep the demand in line with the available supply of materials."

Harold Russell, National Commander, Amvets: "We can't expect to afford to do business as usual."

United States will soon end financial aid to the Philippines.

Trygve Lie, Secretary-General, United Nations: "I really still think that the Soviet Union wants peace."

IT'S TIME
for BROOKS!
Because...

Something must be done now about the runaway cost of our state government — a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.

↓

With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.

↓

Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.

↓

Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.

↓

The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.

↓

Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.

↓

The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.

↓

In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.

Pierce Brooks
for
Lt. Governor

Marriage Former Canyon Girl Is Announced

Mr. and Mrs. W. E. Lane of 1702 Pierce Street, Amarillo, Texas, are announcing the marriage of their daughter, Miss Mabel Bishop of Los Angeles, California, to Mr. Theodore Kurpisz of New York City, New York. The wedding vows were exchanged August 20, 1950, at 8:30 at 3201 West Pico Boulevard, Los Angeles.

Mrs. Kurpisz was reared in Canyon, graduated from Canyon High School, attended West Texas State, and taught school before going to California. She was employed a number of years as secretary at Douglas Airplane factory. At the time of her marriage she was employed in a mail order house.

Mr. Kirpisz is employed at North American Airplane factory.

They are at home at 125 C Surfst, Ocean Park, California.

TRANSFERRED SPASMS

For some time now those midget cars have been furnishing fun for the columnists. The latest story is that a traffic officer noticed one of them jumping along the street in a kangaroo-like manner and called to the driver, "What's the matter with that car?"

"It's all right, officer," came the reply. "I've got a little touch of the hiccoughs. I'll be over it in a few minutes."

THE DIFFERENCE

Teacher — Johnny, can you tell the class how much difference there is between the words "notorious" and "famous?"

Johnny — Offhand I'd say just as much as there is between the smell of limberger cheese and that of a rose.

EN ROUTE

Minister — Don't you ever attend a place of worship?

Youth — Yes, sir, and I'm on my way to her house now."

William Earl Waldrop, preacher: "Only God knows who will win out. in the shooting war."

Swisher Rancher Is Appointed By Governor

Frank Cobb, prominent Swisher county rancher, has been appointed a member of the executive committee of Governor Allan Shivers' pasture improvement program. Ray Willoughby of San Angelo is chairman of the committee and C. W. Voyles, Austin, is vice chairman.

Purpose of the committee is to outline plans and to determine procedure and policy for the Decade of Pasture Improvement in Texas, according to the state's cheif executive.

"The program offers great reward for our efforts as a medium of coordinated planning and activity," Governor Shivers said in his letter to Cobb. "The success of this program will be dependent upon cooperative effort in the districts' program and later in the county program."

The program was initiated by proclamation at a statewide meeting of agricultural leaders May 24 in Austin. Governor Shivers called the meeting.

Cobb, who was a member of the reception committee when the governor visited Tulia this spring, has accepted the appointment.

KIND COUNSEL

"Did you do these problems at home?" asked the teacher.

"Yes," replied the boy in the sixth grade.

"Then," advised the veteran of the blackboard, "you'll have to ask your father not to help you any more; you're beyond where he left off, Harold."

SELF-DECEIVED

A boy was strolling through a cemetery reading the inscriptions on the tombstones. He came to one which ran: "Not dead, but sleeping."

Scratching his head, he remarked: "He ain't foolin' nobody but himself."

SAFETY SURE

Wifey — Darling, I always hit my fingers when I go to drive a nail. Isn't there some way I can prevent this?

Darling — Yes. You should hold the hammer in both hands, dearest.

Lyndon B. Johnson, U. S. Senator from Texas: "Inflation can do what communism hopes to do."

DUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Herring Hotel, Amarillo, Sunday and Monday only, Sept. 3 and 4, from 9 A. M. to 4 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge.

Large incisional hernia or rupture following surgical operation especially solicited.

WHERE CREDITORS ARE NOT

"I like to take a jaunt in the country," remarked a city man who is up to his neck in debt. "I love to stroll along past quiet country meadows. You know you just can't owe money to a cow."

STRANGE

Helen — Isn't it odd how many people are suffering from head colds this winter?

Dorothy — Yes, it is rather strange how this little germ can always seem to find our weakest spot.

SCOTCH TRIUMPH

Polly — When Jim and Elizabeth came back from their bridal trip he still had $2.50 in his pocket.

Peggy — The stingy thing.

TO THE VOTERS OF TEXAS:

I deeply appreciate the confidence placed in me by the voters of Texas in the first primary when they gave me a 37,000 vote lead over my nearest opponent for the office of Judge of the Court of Criminal Appeals of Texas. In a field of 8 candidates for this office, I received more than 200,000 votes.

If nominated on August 26, I shall undertake to make the kind of judge of the Court of Criminal Appeals that the citizens of Texas want and are entitled to have. The decisions written by me will be based upon a COMMON-SENSE INTERPRETATION OF THE LAW, with justice both to the State and to the individual.

I am proud of the fact that my home county . . . Lamar County . . . has given me the unanimous endorsement of the Lamar County Bar Association.

Thanks to the Voters of Randall County for the splendid support given me in the first primary.

Thursday Evening Nuptial Vows for Dora Ann Amason-Carl Eugene Hair Are Solemnized in Church Ceremony

MRS. CARL EUGENE HAIR

Wedding vows for Miss Dora Ann Amason, daughter of Mr. and Mrs. Noah Amason, and Carl Eugene Hair, son of Mr. and Mrs. Carl W. Hair, were exchanged in the First Methodist Church on Thursday evening. Rev. Herschel Thurston read the double ring ceremony.

The pre-nuptial organ prelude by Mrs. Glenn Dowlen included "Bells of St. Mary's," "Liebiestram," and "Song of Love." Mrs. H. R. Fulton, Jr., accompanied by Mrs. Dowlen, sang "Through the Years." The traditional wedding march was used for the processional and recessional. Mrs. Fulton sang "The Lord's Prayer" for the benediction.

Vows were exchanged before an altar formed by arched candelabra entwined with greenery. Basket arrangements of gladioli and bronze and yellow mums and candelabra flanked the altar. Large palms formed the background. The pews were marked by yellow and bronze ribbon.

Candlelighters Dorothy Lee Carter and Gloria Jean Franklin wore light bronze taffeta dresses fashioned with scooped out necklines and flaring skirts. They carried colonial nosegays of bronze mums. The bridesmaids, Janette Mahle and Jean Pitt, wore yellow taffeta dresses fashioned like the candlelighters and carried nosegays of bronze mums. Mary Tom Bomar of Silverton, attending the bride as maid-of-honor, wore a dress fashioned as the others in dark bronze taffeta. Her nosegay was of yellow mums. The bride's attendants wore mitts and caps of the same material as their dresses, the caps were decorated with small mums of contrasting colors.

Given in marriage by her father, the bride was attired in a dress of ivory satin fashioned with a scooped out neckline outlined with re-embroidered imported Aloon lace in a leaf design. The leaf cut-out designs were repeated on the skirt and train. The long sleeves extended into a point over the hand. Her scalloped triple tiered veil of imported English silk illusion was attached to a tufted ivory satin cap studded with seed pearls. She carried a bouquet of an orchid surrounded by gardenias and stephanatis.

Glen Prater attended the groom as best man, and Billy Samples and Clarence Maynard were groomsmen. Ushers were Don Hickman and Jerre Inman.

For her daughter's wedding Mrs. Amason chose a dress of aqua crepe complimented with navy accessories and an orchid corsage.

Mrs. Hair, mother of the groom, was attired in an ashes of roses dress of Chantilly lace with matching accessories. Her corsage was an orchid.

Fellowship Hall was the scene of a reception honoring the couple immediately after the ceremony. The serving table, laid with a linen cloth, was centered with an arrangement of yellow mums among lighted tapers. Mrs. Ben King of Silverton presided at the punch bowl and Mrs. W. A. Miller served the cake. Mrs. C. O. Elkins was at the guest book. Marion Miller at the piano furnished background music.

For the wedding trip to New Orleans the bride wore a velvet suit of black and chartruse complimented with black accessories. Her corsage was an orchid.

Mrs. Hair is a graduate of West Texas High where she was a member of the Mahaka sub-deb club.

Mr. Hair is also a graduate of West Texas High.

After August 27 the couple will be at home at 2004 4th Ave.

Alexander Wiley, United States Senator from Wisconsin: "During the last two decades appointments to the courts of the United States have been almost exclusively on a partisan, Democratic basis."

Earl Warren, Governor of California: "Fright leads inevitably to hysteria, the greatest deterrent to any kind of lefense."

Austin Pardue, Episcopal Bishop: "It is impossible to have vital Christianity without some emotional fervor."
